DELAWARE!

THE Town of Delaware is situated in Kan-sas territory, on the south side of the Mis-ouri river, three miles above the line of the Delaware reserve, and ten miles below Leaven-worth city. This town was laid off and located in February last, on a tract of land densely tim-bered, easy of access from the surrounding country and situated favorably for health: already there are a number of houses going up. It has the following resources as a good and

The Missouri river at this point is compressed within a narrow space, the channel is remarkably deep on the Delaware side, and washes for a mile above and below, the Kansas shore, thus affording at all times. thus affording at all times a safe and secure landing for steamers.

Secondly—Timber in Abundance
The tract of land on which the town is laid
out, is covered with valuable timber, for building purposes, besides this, there is on the oppo-site side of the river a large bottom, heavily timbered with oak, ash and walnut.

Thirdly-Its Position. This town has on the Kansas side of the river supporting it, a large district of the very best lands in the Territory, while on the opposite side of the river there is a large and fertile bottom, teeming with population. This bottom is of itself sufficient to sustain a town of large of itself sufficient to sustain a town or large size. This is the most accessible point from which the Delaware nation of Indians can pro-cure their supplies. Delaware is the nearest and most accessible point at which the country and most accessible point at which the country' on the Kansas river can do their receiving and forwarding business. There are a great num-ber of towns on the Kansas that will find it to their interest to make this place their shipping noint, among them we would name Osawkee, Calhoun and others. As there is a good ferry at this point, engigrants traveling to Kansas Ter-ritory on the great State road from St. Joseph to St. Louis, will find that this is the proper neans they avoid a great deal of unnecessary

Every inducement will be given to mechanics to make Delaware the place of their choice. We ask each person to examine the place. The merchant will find on an examination, that Delaware is obliged to command a trade not second to any town in the Territory; from such persons we ask an examination.
